## WBENC

*Did you know that GCE is a certified member of the Women's Business Enterprise National Network (WBENC)?*

The Women's Business Enterprise National Council (WBENC) was founded in 1997. This is the nation's leading advocate of women-owned businesses as suppliers to America's corporations. It also is the largest third-party certifier of businesses owned and operated by women in the United States. This organization is dedicated to enhancing opportunities for women's business enterprises. WBENC works in partnership with women's business organizations located throughout the country to provide a national standard of certification for women-owned businesses.

WBE certification has national recognition by thousands of US Corporations and several public sector agencies. GCE Solutions, Inc. received WBENC certification in 2008. The WBENC certification was a big achievement in growing our business. We are pleased to now be part of this women's business organization partnership.

Being certified as a WBE means that our business concern has gone through a rigorous and stringent certification process which is recognized and accepted by a majority of the major corporations across the U.S. WBENC certification is not just an important marketing tool for expanding the company's visibility but also gives access to decision makers in supplier diversity and procurement offices. Many corporations require that you be WBENC-certified before providing access to their supplier diversity programs. "We are proud to become a certified Women's Business Enterprise and we look forward to the new opportunities that our WBENC certification will bring".

GCE's WBENC certification may be viewed here.
